## **PROFILE**

Robotics Engineering student soon graduating from the University of Essex with experience in computer vision and robotics and adept in multiple programming languages. Results-driven problem solver with excellent organisational, planning and communication skills, looking for a challenging position with the opportunity to work with a team and take on high levels of responsibility.

## SUMMARY OF SKILLS

- Proficient in Java, C, C++, and Python.
- Experience with AI, Computer Vision and Machine Learning.
- Experience with Web Design (HTML, CSS, JavaScript)
- Proficient with MATLAB and Simulink.
- Experience working with Agile methodology and Scrum (Jira).
- Experience with Git.
- Proficient in English, Urdu, and Hindi, with basic Arabic and Japanese.

## **EDUCATION**

University of Essex, BEng Robotics (Dean's list 2019-2021) - Expected 1st Class Hons.

Sept 2019 - July 2022

Relevant modules include:

- Capstone Project: Building an app to allow dynamic target tracking using the DJI Tello drone. Uses Computer Vision, Machine Learning and SLAM techniques to allow autonomous target-following behaviour.
- 2<sup>nd</sup> Year Team Project: Worked with a team to design a complete hardware and software system for team sanitation management with a client company. Designed a PC app in Java to display sensor data from cloud.
- 1st Year Team Project: Worked with a team to design an eye-testing application using the Aldebaran Pepper robot.
- Computer Vision: Object recognition, target tracking, statistical shape models and computer vision system evaluation.
- Robotics: Explored the use of ROS and C++ in conjunction with TurtleBot 3.

Eastern Public School, IB Diploma Programme and CIE A levels

June 2016 - June 2018

September 2021 - October 2021

# **EXPERIENCE AND AWARDS**

### Hospitality Industry (Heavenly Desserts)

Gained valuable experience catering to customers and as part of a team in the hospitality industry.

Eastern Public School, Student Council President

July 2016 - July 2017

Acted as student and school representative. Lead a team of student leaders to organise school events and spearhead student welfare initiatives.

Eastern Public School, Project Infaq

July 2016 - July 2017

Participated in the provision of food packages to 600+ impoverished households in the month of Ramadan.

Bhopal, Physics and Mathematics Tutor

2018

Gained valuable experience in note-taking and presentation by tutoring school juniors in Physics and Mathematics.

Eastern Public School, Yearbook Editor-in-Chief

July 2016 - Sept 2018

Assumed editorial role in the production of the school's annual student publication to eliminate avoidable errors and maximise the quality of submissions and articles published.

#### Indian International Model United Nations, Delegate and Press

June 2016 - June 2018

Attended 3 Model United Nations conferences as both a delegate and a reporter. Gained valuable debating and researching skills as a delegate and note-taking and article-writing experience as a reporter.

Billabong High International School, Duke of Edinburgh Bronze Award

## **INTERESTS & HOBBIES**

My greatest passion is crafting - be it woodworking, experimenting with recipes, tinkering with electronics, making games or building my own website. I take great pride in seeing the products of my hard work take flight. I take an active interest in the world of technology - especially robotics, AI, renewable technology and gaming. I love to cook and enjoy experimenting with new and interesting flavours from across the world. I strive to solve real-world problems and help bring smiles to people's faces with every project and endeavour.
